

Overview of Training

This course will serve as a refresher and training exercise for BNR, by reviewing the five categories listed under the Agenda. At its completion, attendees will find that they have been reacquainted with a few concepts and process control techniques that are sometimes overlooked. They will also gain a thorough understanding of how sludge production affects their process.

Who Should Attend?

Wastewater system operators, managers, superintendents, and owners.

Instructor

Jack Crosby, Superintendent, Jewett City WWTP, started in the wastewater field in 1972. He operated wastewater facilities from 1 MGD to 105 MGD. Mr. Crosby has authored many training guides, O&M manuals, technical publications, and delivered lectures in Illinois, Indiana, and California. He is certified in five states.

He holds a Connecticut Class IV license. From 2005 to 2015 he managed a 30 MGD plant in Bridgeport, CT.

If you would like ASRWVA to hold a training course at your facility please contact Jason Blais at 860-370-5759 or via email at jasonblais@asrwva.org
