

Overview of Training

This course will provide attendees with a review of the history and purpose of the Revised Total Coliform Rule and the Groundwater Rule. The first two hours will review the RTCR, followed by two additional hours on the Groundwater Rule. Requirements for each rule will be discussed. The practical aspects of compliance will also be discussed. Attendees will leave with a better understanding of these rules, especially the changes under the RTCR.

Who Should Attend?

Water system operators, superintendents, managers, and owners.

Instructor

John McClellan is a Vice President at Tighe & Bond and has been with the firm for 16 years. He has a Bachelor of Science in Civil Engineering, Master of Science in Environmental Engineering, and Ph.D from the University of Massachusetts Amherst. He is a licensed Professional Engineer in NH, CT, and MA. Mr. McClellan is serves on the New England Water Works Association Filtration and Scholarship committees.
